Cloud Computing Topics Examined and Evaluated at CIO Cross-Industry Summit for Fortune 1000 Leaders

September 14, 2010 – The CIO Summit, a technology event for CIOs and IT leaders within the Fortune 1000, has announced that the major focus of this year’s strategic agenda is devoted to the examination of cloud computing. The CIO Summit agenda is comprised of thought-leadership sessions, executive vision panels, think-tanks and focus groups. The CIO Summit will be held in Scottsdale, Arizona, November 7 – 10, 2010.

“Cloud computing is at the forefront of every discussion we’re having within our CIO community. Rather than devote a few spare sessions to the topic, we’ve decided to include many different cloud computing topics and perspectives into this year’s agenda and knowing that our audience will find value in the sessions,” said Ross Abbott, Event Director, CIO Summit.

The CIO Summit attendees will gather in Scottsdale for a two-and-one-half day conference devoted to networking and idea sharing. The Summit will bring together North America’s IT innovators, analysts, solution providers and CIOs across Fortune 1000 organizations. The attendees joining the event are invited exclusively by CDM Media’s Strategic Business Summit division. The latest confirmed attendees include:

- Art King, Global Infrastructure Architecture, Nike
- Sunil Verma, CIO, The Children’s Place
- Mike Harkins, SVP & CIO, Transamerica Life Insurance

If you are interested in learning more about the CIO Summit, please contact Ross Abbott, Event Director, CIO Summit, at ross.abbott@cdmmedia.com or 808-694-3661. For more information about the CIO Summit, visit the event website, www.ciosummit.us.

About the CIO Summit

CDM Media brings together CIOs and technology executives from North America's Fortune 1000 organizations to develop business ideas and build lasting relationships with peers and colleagues. The CIO Summit, to be held November 7-10, 2010, allows IT executives to discuss the latest business technology issues and learn about current technology solutions. For more information, please visit <http://www.ciosummit.us/>.
