CIO Cloud Summit Partners with HPC in the Cloud

November 3, 2010 – The CIO Cloud Summit team announced today that it has formed a strategic partnership with *HPC in the Cloud*, an online resource that's dedicated to covering topics and trends associated with enterprise and scientific large scale cloud computing.

The CIO Cloud Summit, April 10-13, 2011, is an exclusive opportunity for CIOs and IT executives who are interested in implementing or have implemented public or private cloud computing projects at their organizations. The technology event encourages attendees to share best practices, IT project successes and failures, and new ideas. Topics covered on this year's agenda include cloud computing security, data control and privacy, and public versus private cloud.

HPCintheCloud.com, with an audience of technology decision-makers and stakeholders in government, academia and industry, features in-depth articles and whitepapers in order to provide readers with the most accurate and current information on developments happening in the specific point where cloud computing and HPC intersect. *HPC in the Cloud* is operated by Tabor Communications, an international media, research, market intelligence, and communications company.

"*HPC in the Cloud* is a great resource for our attending CIOs, analysts and technology leaders. I'm excited to introduce our audience to this publication and believe that they will get a lot of value out of the high quality content featured on the company's website and in its newsletter," said Glenn Willis, EVP, CIO Cloud Summit and CEO, CDM Media.

For more information about or to participate in the CIO Cloud Summit, contact Glenn Willis at glenn.willis@cdmmedia.com or 808-694-3700. To learn more about the technology event, please visit www.ciocloudsummit.com.

If you are interested in forming a partnership with CDM Media, please contact Kelly Schricker, Events and Marketing Specialist, CDM Media, at kelly.schricker@cdmmedia.com or 808-694-3656.

About CIO Cloud Summit

CDM Media brings together CIOs and technology executives from North America's Fortune 1000 organizations to develop business ideas and build lasting relationships with peers and colleagues. The CIO Cloud Summit, to be held April 10-13, 2011 in Scottsdale, Arizona, allows IT executives to discuss the latest cloud computing topics

and trends, and learn about current technology solutions. For more information, please visit www.ciocloudsummit.com.

About *HPC in the Cloud*

Published by Tabor Communications, *HPC in the Cloud* covers the extreme-scale leading-edge of cloud computing – where high performance computing (HPC) and cloud computing intersect. *HPC in the Cloud* is written to provide technology decision-makers and stakeholders in the High Performance Computing industry (spanning government, academia and industry) with the most accurate and current information on developments happening in large-scale cloud computing. *HPC in the Cloud* delivers news, exclusive features, and commentary on developments taking place in extreme-scale cloud computing. *HPC in the Cloud* can be found online at <http://www.HPCintheCloud.com>.
